---

**USING LAYERS**

---

**METHOD 1**  
setting two or more lines,  
with the background layer at  
the top and the foreground  
layers underneath, and  
setting the leading value  
to zero

---

**METHOD 2**  
setting the foreground  
and background layers in  
separate text boxes, and  
positioning the foreground  
layers directly on top of  
that of the background; this  
method is best for setting  
multi-line blocks of text
